

TIGER

INDUSTRIAL SOLUTIONS

ENGINEERED FOR PRODUCTION.
BUILT FOR PERFORMANCE.

DESIGN

FABRICATION

CUSTOM SOLUTIONS

BUILT AROUND YOUR PRODUCTION PROCESS

WHO WE ARE

In Tiger Industrial Solutions we design and manufacture custom equipment for production lines, material handling, and industrial operations.

Metal fabrication • CNC machining
Welding • Engineering plastics

ENGINEERING THAT SOLVES REAL PROBLEMS

- Purpose-built for each production process
- Protect valuable components during handling
- Improve operator access and ergonomics
- Organize work-in-process material flow
- Designed for demanding industrial use

CUSTOM MATERIAL HANDLING EQUIPMENT

DESIGNED FOR THE FACTORY FLOOR

- Mobile production carts
- Stainless-steel frames with precision-cut inserts
- Custom layouts for component positioning

MOBILE FLOW RACKS & FIFO SYSTEMS

DESIGNED FOR THE FACTORY FLOOR

- Multi-level flow racks
- Roller tracks and gravity-fed movement
- Adaptable to line-side material presentation

STAINLESS STEEL PRODUCTION SOLUTIONS

DESIGNED FOR THE FACTORY FLOOR

- Custom stainless-steel carts and fixtures
- Blue nylon and white protective inserts
- Purpose-built part support and handling

CNC MACHINING & ENGINEERING PLASTICS

DESIGNED FOR THE FACTORY FLOOR

- Custom-machined HDPE and nylon components
- Precision supports, guides and inserts
- Metal parts and production tooling

CUSTOM FABRICATED STRUCTURES

DESIGNED FOR THE FACTORY FLOOR

- Welded steel storage and handling frames
- Mobile industrial fixtures
- Built around part geometry and workflow

COMPONENT PROTECTION & SPECIALIZED HANDLING

DESIGNED FOR THE FACTORY FLOOR

- Protective enclosures and mobile carriers
- Part separation and dedicated supports
- Handling solutions for sensitive assemblies
- Creating clean and dry environment for Special parts

OUR MANUFACTURING CAPABILITIES

METAL FABRICATION

Stainless and carbon steel structures

CNC MACHINING

Machined metal and engineering plastics

WELDING

Industrial welded assemblies

MATERIAL HANDLING

Carts, racks, flow systems and fixtures

ENGINEERING PLASTICS

HDPE, nylon and polyurethane components

3D PRINTING AND SCANNING

Metal and Plastic parts

LET'S BUILD SOMETHING THAT WORKS.
